VERSATILE OPEN AIR MERCHANDISERS

Model: VASC 47 Digital

VASC Slim Line

VASC ADVANTAGES:

Visual merchandising cooler with self-contained refrigeration. This is an open front case without doors - great for impulse merchandising! It utilizes an air-curtain across the front and provides "barrier free" selling of your refrigerated products.

The open front merchandisers are designed to maintain a product temperature below 40 degrees Fahrenheit or 4 degrees Celsius. They are not intended for the storage of open food but would be suitable for the storage of packaged processed foods. These units have been installed in airports, as well as other self-service applications for many years.

FEATURES:

- This is an open front case without doors
- Perfect for retail flower sales.
- Durable stainless steel floor - eliminates rust - easy clean up
- Digital controller temperature controlled defrosts
- All units do not require a drain. Easy for installation
- Units come with screw in levelers.

OPTIONS:

- Large lighted sign display area with merchandiser. Lighted sign shipped blank
- 6" legs and casters optional.

proudly manufactured in **CANADA**
